

Coop. Extremeña de Ajos de Aceuchal, S.C. born with the enenthusiasm and sacrifice of a group of farmers. Here, knowledge, experience and tradition have been adquired and inherited generation after generation

Our experience has made us grow and develop. To do this, we reap a product with all necessary quality controls, implementing a traceability system and enviromental respect.

We have modern facilities that allow us to move forward and provide a wide range of products ranging from fresh garlic in bulbs, through the natural peeled garlic and garlic puree.

Formed by a great team, we strive for continuous improvement. Our mision is to harvest best quality garlics and to provide a personalized service to our customers.
